

Mahanoy Area Gifted Page-- This site offers easy access to resources concerning gifted education in Mahanoy Area School District and in Pennsylvania, whether you are a student, parent, educator, or legislator.

The Mahanoy Area School District believes all students are special and unique individuals and that their education should challenge and inspire them to the best of their abilities. In support of this belief, we serve as advocates for the gifted to ensure they are given appropriate educational experiences. To accomplish this, we provide information, resources and support to students, parents and educators in order to foster a deeper understanding of the needs of gifted students and how they can best be met. We believe that realizing these goals will further academic excellence in our schools, not only for the gifted, but for all students.
